Professional Summary

OSU Okmulgee honors graduate looking for a full time developer role. I am a fast learner, perform excellently under pressure, and look forward to taking on new challenges in a fast paced company.

Highlights

Programming Languages C#, HTML/CSS, L^AT_EX, Python, SQL (SQL Server and MySQL dialects), PHP, Java, Grok

Tools Bash, GIMP, Git, GitHub,

Development Environments Command-Line Interfaces, Emacs, Linux (Arch, Debian/Ubuntu), Visual Studio (Suite and Code)

Skills

Technical

- C#
 - .NET, Core, Framework, and Mono
 - Complex GUI applications using Visual Studio 2010-2017
 - ADO.NET apps for server access and data manipulation
- Java
 - Used Android Studio 2015 to develop Android applications
- Python
 - Graphical wrappers for command line packages and Python-based APIs using Qt5 via PyQt5/PySide2
 - Pandas and Matplotlib
- SQL
 - Manipulated SQL Server and MariaDB
 - graphical frontend and terminal

Other

- fast learner
- goal oriented
- stays organized
- accountable
- committed to optimization
- analytical
- perform exceptionally under pressure
- prioritize tasks effectively
- work well with a team
- solve problems creatively
- effective communicator
- passionate about software

Experience

Work

- Global Service Desk Engineer I - True Digital Security
 - I am the first line of support for our clients from across the country. I provide them with Tier I and Tier II technical support, addressing a wide range of issues such as maintaining security and credentials, diagnosing and resolving problems with business applications, AWS virtual workstations, troubleshooting hardware failures.
 - I develop Grok queries and Python scripts to parse log data and work closely with the DevOps team to provide world-class data analysis and visualization to our clients along with excellent customer service.
- Computer Technician - Oklahoma State University Institute of Technology
 - I was the primary IT technician for the student body of OSUIT. I analyzed, troubleshooted, and implemented solutions to maintain an extensive, school-wide network and provide on-site troubleshooting for hundreds of students and faculty members campus-wide.
 - Skills: Network troubleshooting, software installation, customer care
- Customer Service Representative -Family Video
 - Kept up-to-date knowledge on inventory, met or exceeded required sales and customer service metrics, maintained an organized salesfloor. Provided basic troubleshooting and excellent customer service.

Projects

- I actively contribute to/maintain multiple software projects, including:
 - renpy-mode (Elisp)
Syntax highlighting framework on Emacs for the Ren'Py game engine. I am currently the sole maintainer for the renpy-mode software.
 - codefortulsa/clear-my-record (JavaScript)
Client-side app for the Code for Tulsa civic action nonprofit to automate the process of clearing the criminal records of applicable people. I fleshed out the form with extra fields and implemented professional document formatting to the resulting form.
 - microsoft/msbuild (C#)
The C# compiler. I added more information to multiple error messages and provided repository maintenance.
 - openmw-nif-cleaner (Python)
Project to provide an easy-to-use, automated method of porting texture files from the archaic Gamebryo engine to the modern OpenMW engine. I wrote the GUI and tied it to the backend, as well as refactored and optimized the code for the backend.

Education

August 2019

B. Tech, Information Technology; Oklahoma State University Institute of Technology **Summa Cum Laude; GPA: 3.3**

**December
2017**

AS, Computer Science; Oklahoma State University Institute of Technology **Magna
Cum Laude**; GPA: 3.5
